

Tour of the Pond at Mezzacello

A shark cam view of the pond to check for fish health and the status of the pond and water quality. Everything is good to go.

Tour of The Pond

Welcome to the tour of the pond at Mezzacello. We also call this the aquatic ecosystem and it is integral to the health of Mezzacello.

The Garden of Grace and Charity

We found this sculpture in Virginia. We have been looking for something this charming for years. Now we have her in the garden.

Lesson: Pressure and Water

In this lesson we explore why water is so special in that it is magnetic and when you constrict it gets stronger. This is sanitary.

Clean Water and Sanitation and Sustainability

As part of a series of blogs on UN 17 SDG at Mezzacello. This one covers water and sanitation and it's value.

Power Heat and Water Even in the Winter

Even in the dead of winter at -20C the systems at Mezzacello work great! I am pretty pleased with this update.

Crazy Winter Weather in

2022/23

A quick observation about crazy winter weather we continue to have here at Mezzacello.

Winterizing the Pond at Mezzacello

After a really good year with the pond and a bakki shower, putting the pond to bed is a snap! Clear, clean and stable!

Bakki Shower and Biofilter Combo

A slideshow of the pond systems in the fall of 2022. The Bakki Shower and the Biofilter systems. It's where nature meets tech!

It's Getting Hot In Here

As part of my continuing series of blogs about water as a resource, this blog discusses sublimation and vapor.
