**Open Enrollment for Mezzacello  
Camps**

Due to high demand and waitlists in 2024, Mezzacello Urban Farm will be offering our popular Applied STEM and Urban Ag Summer Camps twice this season. The first time is through the PAST Foundation registration, and these camps are open to anyone to join through [Mezzacello.org](https://Mezzacello.org)

These camps are the same camps that have proved so popular in the previous three years. This year they will be co-taught by Mr. Jim, a teacher and Middle School interns who have demonstrated subject matter mastery of their topic. It's a fun opportunity for kids to co-learn together with their peers.

**Open Enrollment for one Day  
Mezzacello Workshops**

One day workshops at Mezzacello Urban Farm are a fun way to get kids and their families involved in better understanding food, ecologies. animals, and wellness. Each workshop is a weekend morning to afternoon – unless otherwise designated as an evening workshop or a Sunday workshop.

Families are encouraged to attend together and teach each other something fun and new at Mezzacello Urban Farm. From caring for animals to understanding electricity, to The Floor Is Lava and even Quantum Physics. Lots of options here!

## School Visits and Public Speaking

Mezzacello Urban Farm has a long history of developing innovative Applied STEM content in a mobile platform to

schools around Ohio. Jim Bruner has 20+ years experience in Educational Technology and Standards-Based Curriculum Development, first with the State of Ohio and later with The PAST Foundation.

Mezzacello Urban Farm can come to you! Mezzacello offers three different experiential opportunities to any school in Central Ohio. Our rates and descriptions and activities can be found below.

- Ecologies and The Human Environment
- Applied STEM and Animals as Partners, Not Pets
- Energy Production and the Physics of Electricity
