

Mezzacello Zoo Brew Adventures 2023

A while back I was offered 25 cubic yards of ZooBrew Manure from our local zoo. I opted for 10 cubic yards. I'm glad I did!

Mezzacello and the Impact on Health Careers

Mezzacello has a mission to sustain our communities! One of the way we do this is through outreach to the future.

Goofy Smiles and Grandkids

Visiting with my grandkids is a highlight of my year. The goofy smiles though! They definitely make us laugh!

The Revised Brand at

Mezzacello Urban Farm

Most of the world could not read our cursive logo. Those who could not read it called it red house/green leaf farm.

Enclosed, Interdependent Ecosystems

This is a fun way to help people see how the planned ecologies at Mezzacello Urban Farm all work together to support life.

The Foodist: Cauliflower and Roquefort Soup

This is a modification of another The Foodist recipe. The cauliflower, roquefort and walnuts pair nicely.

The Garden of Grace and Charity

We found this sculpture in Virginia. We have been looking for something this charming for years. Now we have her in the

garden.

Earth and Her Water

A visualization of the extreme shallowness of Earth's oceans and icecaps and how rare fresh water really is. This is why water is precious.

Our Goal At Mezzacello Urban Farm

This is the mission and vision of Mezzacello: Grow, maintain, sustain, and entertain. Come visit us or tour to learn more.

The Foodist: Chestnut and Pumpkin Soup

Another delightful soup from The Soups of France. This soup is good hot, warm or cold! Perfect soup to impress!
