

Creating Unique Fertilizers From Scratch

This is an introduction to the various types and styles of fertilizers and compost that are created at Mezzacello.

Recycling Boxed Wine Bags

Preparing fertilizer with recycled boxed wine bags! Luckily my neighbors can provide plenty of wine bags and serve as testers as well

Pond Update for 2022 Part 1

Lots of new, fun stuff coming online for the aquatic ecosystem at Mezzacello. New pumps, filters, harvesting, and wetlands!

Eden's Ghost Application

The origin and use of Eden's Ghost and how I developed it with the bioreactor. This post includes directions for use and instructions.

Ponds as Spigots and Nutrient Additive Systems

The moment when you realize that the biofilter for the pond is actually also an algae wine cask for the flowers.
