

Industry, Innovation and Infrastructure and Sustainability

Part of a blog series on how Mezzacello addresses UN 17 SDG.
This one is industry and innovation.

Global Innovation Field Trip and the Bioreactor

A presentation about the design cycle and how I used it to
move Mezzacello from simple to complex systems.

Ponds as Spigots and Nutrient Additive Systems

The moment when you realize that the biofilter for the pond is
actually also an algae wine cask for the flowers.
